About SORIN

The Duck Police Department has implemented SORIN (Serving Our Residents In Need) to establish a relationship and understanding with Town residents who may need a little extra special attention.

Volunteer participants may choose to have our police officers:

- Make personal visits to their homes;
- Contact them on a scheduled basis via telephone or e-mail;
- Assist with smoke detector inspection;
- Conduct residential site security assessments;
- Assist with any other agreed to item that deals with security.

They may also choose to divulge personal medical information that may assist our emergency management personnel during unusual events or emergencies. All information provided as part of the SORIN Program will remain strictly confidential.

The SORIN Program's goal is to tailor services to each participant's needs to provide a greater sense of security and independence within the community.

We would welcome the opportunity to discuss the services provided as part of the SORIN Program with you. If you are interested in learning more, please contact us at:
