CALL VOLUME

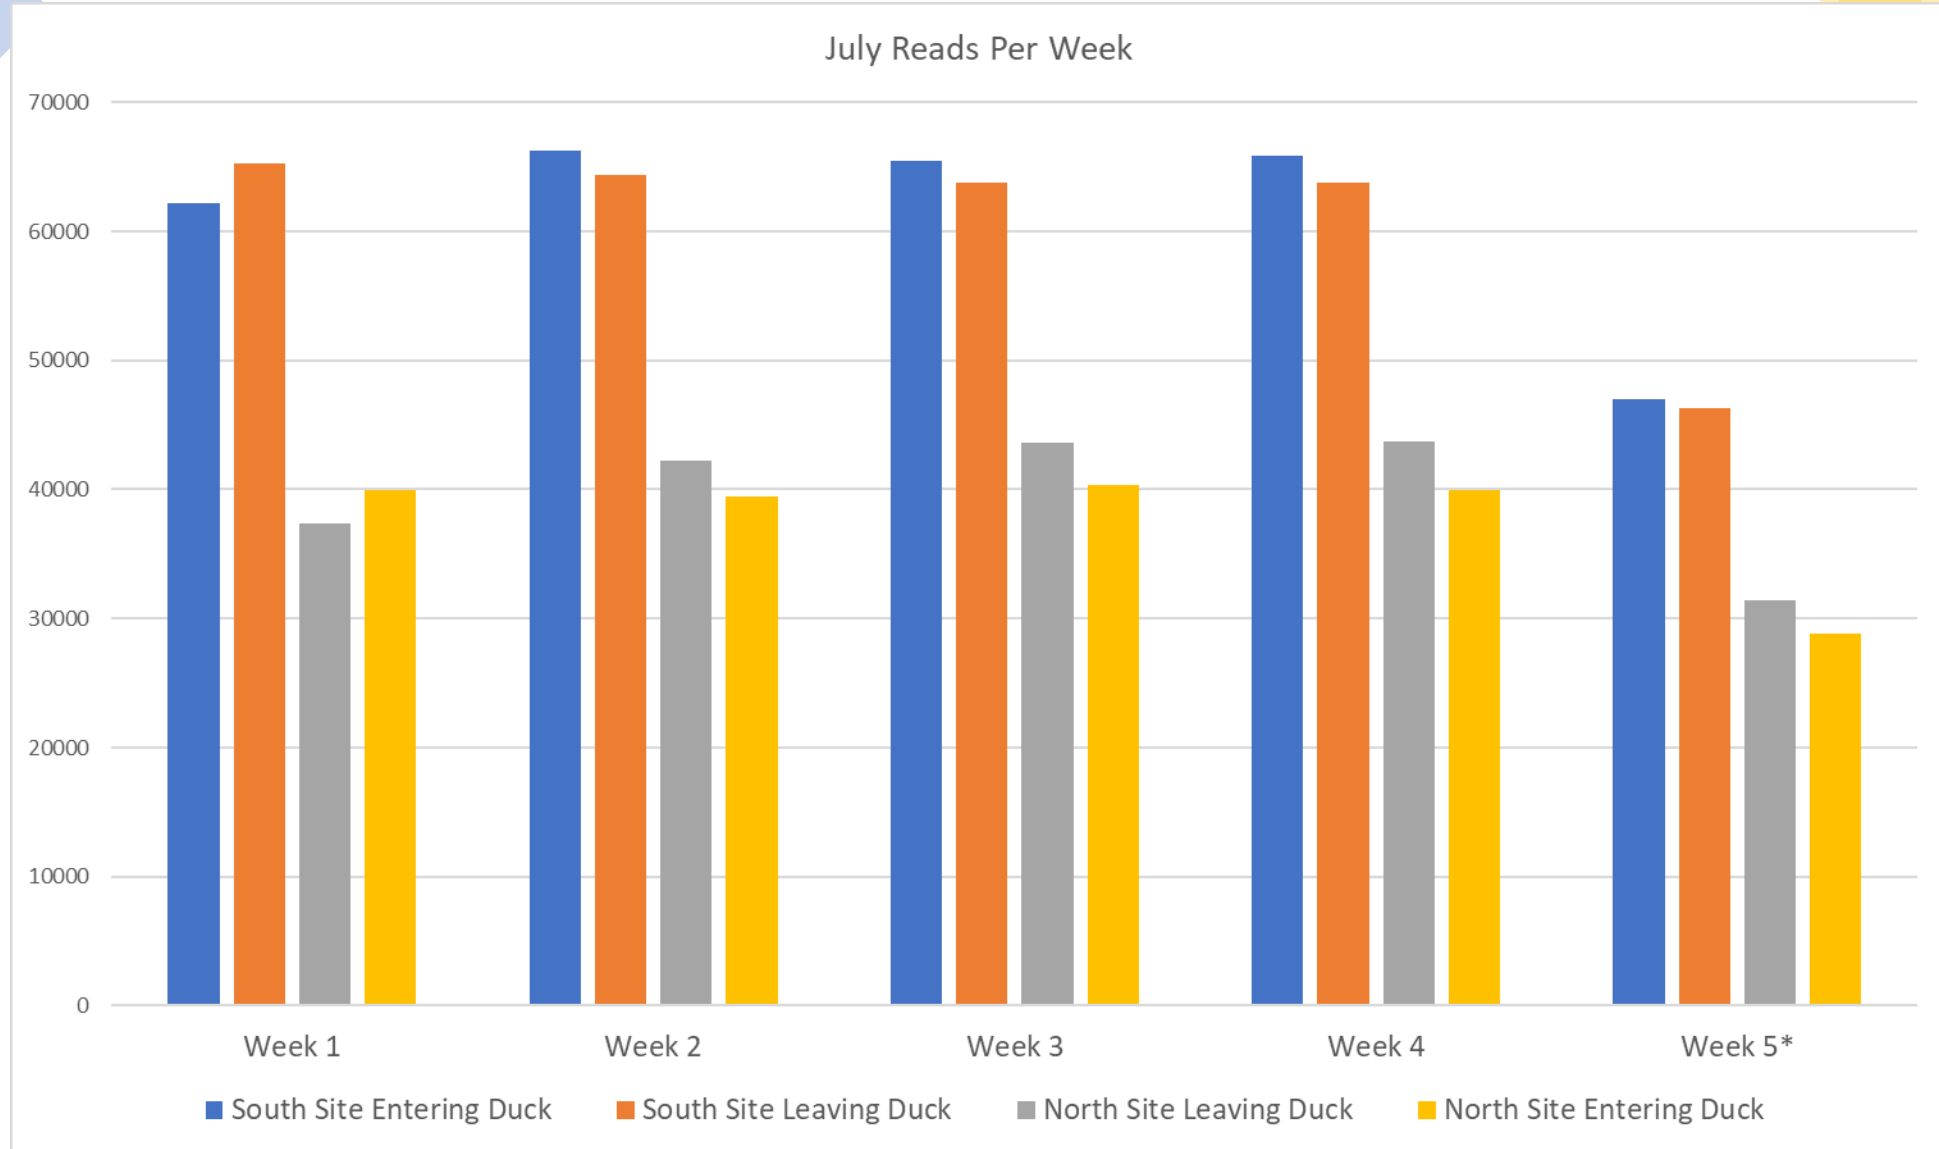

Year to Date

July: Year-over-Year

*Additional ALPR Data Can Be Found At: <https://www.townofduck.com/police-department/>

Traffic volume data obtained from license plate reads made by the Town's Automated License Plate Reader Systems (ALPR) can vary in accuracy based on traffic conditions. The Department is currently evaluating new technology that is specifically designed to accurately capture traffic volume and vehicle speed data. Until that technology is in place, we'll continue to post the monthly traffic counts from the ALPR with this disclaimer.

Thank You!
